

**MATERIAL SAFETY
DATA SHEET**

Emergency numbers: Beckman Coulter @ 714-871-4848

Chemtrec @ 1-800-424-9300

1. IDENTIFICATION OF PRODUCT

This Material Safety Data Sheet applies to:

Product Name

**IL Test D-Dimer Controls
HemosIL D-Dimer Controls**

Part No.

**0020008600
0020008610**

2. COMPOSITION

INGREDIENT NAME

**CONCENTRATION
PERCENT BY WEIGHT**

Sodium Azide - (Preservative)

< 0.1

CAS No.: 26628-22-8

EINECS No.: 247-852-1

Hazard Classification: T+ (as raw material)

Risk Code: R28-32

R28: very toxic if swallowed

R32: Contact with acid liberates very toxic gas

Partially purified human D-Dimer (Lyophilized)

Bovine serum albumin

3. HAZARD IDENTIFICATION

POTENTIAL HEALTH EFFECTS:

EYES

Direct eye contact may cause redness and irritation.

SKIN

Prolonged or repeated contact may cause skin irritation. Avoid prolonged or repeated contact with the skin.

INGESTION

Harmful if swallowed

INHALATION

Mild irritant.

4. FIRST AID MEASURES

EYES

In case of eye contact, flush eyes with plenty of water for at least 15 minutes. Ensure adequate flushing by separating the eyelids with fingers. Obtain medical attention if irritation develops.

SKIN

Promptly wash exposed areas thoroughly with soap and water. Obtain medical attention if irritation develops.

INGESTION

Rinse mouth with plenty of water. Obtain medical attention or contact the local Poison Center.

INHALATION

Remove individual to fresh air. Give oxygen if breathing is difficult. Obtain medical attention if breathing becomes difficult.

5. FIRE FIGHTING MEASURES**FLAMMABLE PROPERTIES****FLASH POINT**

LOWER EXPLOSIVE LIMIT (%): Not Applicable

UPPER EXPLOSIVE LIMIT (%): Not Applicable

FIRE AND EXPLOSION HAZARDS:

None known.

EXTINGUISHING MEDIA

Use any extinguishing agent that is suitable for the surrounding fire.

FIRE FIGHTING INSTRUCTIONS

Wear self-contained breathing apparatus and protective clothing that is appropriate for fighting a typical fire involving chemical materials.

6. ACCIDENTAL RELEASE MEASURES

Wear appropriate personal protective equipment as specified in Section 8.

Clean up spills in a manner that does not disperse dust into the air or create aerosols of prepared solutions. Dry spills should be moistened with water or an EPA approved disinfectant. Contain spill and decontaminate the area. Pick up material and dispose in biohazard/sharps container as appropriate.

7. HANDLING AND STORAGE**HANDLING AND STORAGE PRECAUTIONS**

Reference the product labeling for handling and storage instructions.

SPECIAL REQUIREMENTS: Keep away from acids (sodium azide reacts strongly) and away from contamination with heavy metals. Sodium azide has been reported to form lead or copper azide in laboratory plumbing which may explode on percussion. Do not empty into drains.

CAUTION: All blood products should be treated as potentially infectious.

The human source material was found negative for the presence of the antibody to HIV, HBSAg and HCV when tested in accordance with FDA approved tests. The animal serum was tested for the presence of pathologies and found negative. The animal serum was treated during the production processes to inactive viruses. No known test method can offer assurance that products derived from human and animal blood will not transmit infectious agents. Handle as potentially infectious.

Wear personal protective equipment.

WORK/HYGIENIC PRACTICES

Wash hands with soap and water after use.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION**ENGINEERING CONTROLS**

None normally required.

EYE/FACE PROTECTION

Safety glasses or splash goggles are recommended.

SKIN PROTECTION

Wear protective (latex/non-latex) gloves and laboratory coat as required to prevent skin contact.

RESPIRATORY PROTECTION

None normally required with adequate ventilation.

OTHER/GENERAL PROTECTION

None normally required.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: lyophilized powder
Color: white
Odor: odorless
Density: Not applicable
pH: Not available

BASIC PHYSICAL PROPERTIES

VAPOR PRESSURE: Not determined.
SPECIFIC GRAVITY: Not determined.
SOLUBILITY (H2O): Soluble

10. STABILITY AND REACTIVITY

STABILITY: Stable

CONDITIONS TO BE AVOIDED (STABILITY): See Insert Sheet.

HAZARDOUS DECOMPOSITION PRODUCTS

Oxides of carbon and nitrogen may be formed during thermal decomposition (sodium azide)

HAZARDOUS POLYMERIZATION: Will not occur.

11. TOXICOLOGICAL INFORMATION

MISCELLANEOUS TOXICOLOGICAL INFORMATION

Sodium azide: orl-rat LD50 27 mg/kg; skn-rbt LD50 20mg/kg; TLV CEILING 0.11 ppm (0.3 mg/m3).
Experimental mutagenic and tumorigenic data (NIOSH).

The health effects noted above are based on the extrapolation of data on the pure product ingredients. To the best of our knowledge, no health effects have been identified for the product mixture under normal conditions of use, although the health effects of the product have not been thoroughly investigated.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE

None Known

12. ECOLOGICAL INFORMATION

OTHER ENVIRONMENTAL INFORMATION

No ecotoxicological data are available on the product.

Sodium Azide effect toxic to fish (0.98 -8 mg/L) and plankton (5-14 mg/L).

Use in accordance with good laboratory practice. Do not waste in the environment.

13. DISPOSAL CONSIDERATIONS

Based on EEC Directive No. 75/442 and 78/319 and following modifications, the product waste is classified as toxic and harmful (azides). Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

14. TRANSPORT INFORMATION

Not Regulated

15. REGULATORY INFORMATION

This product is classified and labeled in accordance with Directive '1991/45/EC and EEC Directive 91/155 and following modifications. The health hazard classification has been determined based on composition and hazard data of each ingredient. Physical and health hazard information on the reagent mixture has not been determined. Any physical and health hazard information noted is based on a) evaluation of data of the pure ingredient and b) concentration of each ingredient.

Kit Hazard Classification

- EEC Symbol: **Not applicable**
- Risk Code: **Not applicable**
- Safety Code: **S24/25-29-36**
 - S24/25: Avoid contact with skin and eyes.
 - S29: Do not empty into drains.
 - S36: Wear suitable protective clothing.

16. OTHER INFORMATION**REFERENCE DOCUMENTATION**

Primary references used in the preparation of this document:

1. Product Specification.
2. Product Insert.

NOTE

The information supplied in this Material Safety Data Sheet represents the data and best information available at the date of preparation. It is provided with the aim of allowing proper and safe use, storage, transport and disposal of the product. It is not to be considered as a warranty or specification of product quality. It is related to the materials specifically indicated and does not apply if these are used in combination with other materials or during processes not specifically indicated in the text of this Material Safety Data Sheet.
